

WEED CONTROL CLASS 4 MANAGEMENT PLAN

The control objective for weed control class 4 is to minimise the negative impact of those plants on the economy, community or environment of NSW.

NAME OF WEED: Crofton Weed

Common name: Crofton Weed

Scientific name: *Ageratina adenophora*

The above mentioned weed(s) is a noxious weed declared under section 7 of the Noxious Weeds Act 1993.

AREA OF OPERATION & PHONE NUMBERS FOR LOCAL CONTROL AUTHORITIES:

Blue Mountains 4780 5000

CONTACT PERSON(S)

Weeds Officer: Ian Lett, Dave Whiteman

Council: Blue Mountains

PLAN PERIOD

Starting date: 10 November 2006

Completion date: 28 February 2011
(Unless otherwise revoked)

CONTROL MEASURES FOR THE WEED AS PER ORDER 19

The growth and spread of the plant must be controlled according to the measures specified in a management plan published by the local control authority and the plant may not be sold, propagated or knowingly distributed.

The Blue Mountains City Council specifies the following measures to control this weed:

All plants must be treated. Flower heads must be removed and bagged.

Large infestations must have a weed management plan for the site completed by the landholder and approved by the Blue Mountains City Council.

On public land Crofton Weed will be strategically controlled and reduced according to available resources.

CONTROL REQUIREMENTS FOR THIS WEED IN THE AREA OF OPERATION

General information on control methods for this weed can be found at <http://www.weedsbluemountains.org.au> and in the most recent edition of the annual Noxious and Environmental Weed Control Handbook or at www.dpi.nsw.gov.au

All herbicide use is to be undertaken with a registered herbicide as specified on the herbicide product label or relevant off-label permit published by the Australian Pesticides & Veterinary Medicines Authority. Herbicide use must comply with the Pesticides Act 1999, all relevant legislation, and Blue Mountains City Council's Pesticide Notification Plan as of February 2007 where works are carried out on public lands.

Hand remove all parts of the plant including the root system and bag and dispose of all seeding material. Plant material must be removed from site or stacked off the ground

Spray using a registered herbicide.

Note: Follow-up treatments will be necessary to check for any regrowth and new seedlings.

Note: For infestations in sensitive areas (i.e. Significant vegetation – Endangered Ecological Communities other scheduled vegetation, steep slopes, and creek line vegetation) the landholder will be required to develop a Weed Management Plan (WMP) that will stipulate the control measures. The WMP is to be endorsed by Council.

SECTION 12 OBLIGATIONS (from the Noxious Weeds Act 1993)

Private occupiers of land must control noxious weeds on land.

An occupier (other than a public authority or a local control authority) of land to which a weed control order applies must control noxious weeds on the land as required under the order.

Failure to comply with a weed control order will incur a penalty.

Note: If an occupier fails to comply with obligations under a weed control order, those obligations may be enforced against the owner of the land as well as the occupier by a weed control notice issued under section 18.

PLAN ENDORSEMENT

This plan is endorsed by the Blue Mountains City Council.
